

2018 Church Statistics

A number of churches did not report their stats for 2018, so we went back either one or two years for the most recent number. An asterisk (*) indicates the 2017 number was used, and a carat (^) indicates the 2016 number was used. Otherwise, the church hasn't reported for at least two years. There are also instances where a church reported some stats for 2018, but not all. In those cases, we left the space blank rather than refer to statistics from previous years.

The cumulative membership and attendance, using the most recent numbers from 2016-2018, are:

Membership: 16,327 Attendance: 19,935

The total conversions and baptisms reported for 2018 are:

Conversions: 695 Baptisms: 569
